One of the newest among Clarkson's distinctions is that, through the ICRN, it owns and operates the smallest FM radio station in the nation. This station was put into use early last year; the Inter College Radio Network had already included WHTC and WOCT, two AM stations. Students from Clarkson and State operate the stations and plan and conduct the programs bringing entertainment and information to its listeners. Although the ICRN was founded only three years ago with the combining of WHTC, founded in 1947, and WOCT, founded in 1951, it is one of the most worthwhile activities at Clarkson. The ICRN has accomplished a great deal in a short time, and Clarkson can be justifiably proud of it.
